Traditional Hedge-laying

A unique opportunity to spend two days developing your traditional hedge-laying skills.

**18 & 19 October 2025 at
Denmark Farm, Lampeter**

You will learn the benefits and techniques of hedgerow management including singling and high pruning as well as laying, to give you as much 'hands-on' traditional hedge-laying experience as possible.

The course will involve laying an established hedge, mostly consisting of hazel, hawthorn and blackthorn, and filling in gaps with new tree saplings. We will be laying an approximately 50m hedge in the local Ceredigion style.

Tutors: Ryan Knight Fox & Peter Drake

£130 per person
